NCCM® CX-Plus
Chemically-Resistant Nonwoven Rolls

Advanced solutions for caustic, alkaline and acidic applications
**NCCM® CX-Plus**

*Advanced solutions for caustic, alkaline and acidic applications*

**NCCM® CX-Plus** rolls excel in environments with higher temperature and pressure requirements than the NCCM® CX roll can service. Long life and cut resistance separate the CX-Plus nonwoven from traditional materials that wear and break down quickly.

### TECHNICAL INFORMATION:

**NCCM® CX-SERIES PRODUCT**

**NCCM® CX-Plus**  
Chemically-Resistant Nonwoven Rolls  
Advanced solutions for caustic, alkaline and acidic applications

- Long-life roll for higher pressure and temperature demanding chemical applications and positions

This chart is meant to give an overview and does not provide any formal guarantees for any line. Please contact a NCCM representative for further recommendations and technical support.

### FEATURES

- Resistant to chemicals in high temperatures and pressures
- Longest life compared to any other chemical roll
- Repairability
- Chemical fluid control
- High coefficient of friction
- Self-healing
- Cut resistant
- Porosity

### BENEFITS

- Reduced replacement cost
- Reduced inventory cost
- Reduced maintenance cost
- Reduced fluid usage/cost
- Reduced fluid contamination
- Increased line uptime
- Increased line speed

---

**DENSITIES**  
SCR and 7CP

**OPERATIONAL pH**  
pH range 0-14

**MAX TEMPERATURE**  
116°C (240°F)

**MAX OPERATING PRESSURE**  
1794mm (78 PLI)
